NON-ALCOHOLIC WINES

www.grupoelivo.com

WHAT IS IT

ELIVO is a non alcoholic wine made from de-alcoholized Spanish quality wines through a physical process that respects the main characteristics of the original wine. The de-alcoholized wine is obtained by applying smooth and controlled increases of temperature and pressure to the original wine, which allows to eliminate the alcohol without altering the other characteristics of the original product.

DE-ALCOHOLIZATION PROCESS

The dealcoholization process consists in a small increase of temperature and pressure enough to eliminate the alcohol completely. This new procedure use continuous vacuum rectification, which ensures a gentle removal of alcohol. The main characteristics of this process are:

- Selective alcohol separation with minimal aroma loss. This process allows us to preserve in de final product almost all the flavor, aroma and quality of the original wine.
- Gentle de-alcoholization using low temperature vacuum technology.
- Complete de-alcoholization
- Operation with hot water or steam
- Industrial alcohol as subsidiary end product, ready for immediate marketing

HOW WAS THE IDEA BORN

The idea arises from an investigation project that studies the beneficial effects of wine on human health. The first investigation carried out demonstrated that a moderate wine consumption is able to reduce the blood platelet aggregation and increase the vasodilatation. However the presence of alcohol in wine reduces these beneficial effects, that's we decided to take a step more, eliminating the component that causes toxicity: the alcohol. The further investigation was focused on the de-alcoholization of wine to obtain a product the most possible similar to the original wine where the alcohol has been removed. Once this new product was obtained, tests of effects on the cardiovascular system were realized, obtaining results that demonstrated the benefits of non alcoholic wine consumption on human health. In addition, ELIVO, has a 80% less calories than a traditional wine, which increases its benefits for the health.

In 2009, our company made the first wine bottling without alcohol that was destined mainly to promotions and national market. We consider year 2010 as the year of settlement of non alcoholic wine in the market, therefore our product image was redesigned creating our label ELIVO. Nowadays the production capacity of our company surpasses the million and half bottles per year.

HEALTH BENEFITS OF DE-ALCOHOLIZED WINE

The World Health Organization (WHO) has demonstrated that a moderate wine consumption is beneficial for health.

The benefits of wine consumption are several:

- Reduces the risk of death by cardiovascular diseases.
- Aid to fight the aging thanks to its content in resveratrol and other polyphenols.
- Reduces the risks associated with cholesterol (LDL).
- Improves the look of the skin, maintaining it younger and brighter.

However, to obtain these positive effects derived from the consumption of wine it is necessary to consume superior amounts to the recommendable ones due to the alcoholic content of this product. In the other hand, wine consumption must be moderate to avoid the problems associated to the alcohol consumption that overcomes the previously listed benefits (causes cardiovascular problems, hepatic diseases, anxiety, increase the risk of tumors, etc.) In order to solve this situation ELIVO has created the EVOLUTION OF WINE.

ELIVO de-alcoholized wines keep all the benefits of wine consumption avoiding the disadvantages of alcohol consumption, since our de-alcoholization process keeps the flavonoids, tannins, polyphenols and bioactive molecules that are responsible for the previously indicated benefits.

ELIVO de-alcoholized wines are targeting to a society each day more and more worried about health issues and that does not want to give up to the pleasure of savoring a good wine and enjoying the culture and ritual associated to this product with thousands of years of tradition.

Besides being suitable by their benefits for health, our de-alcoholized wines are also especially recommended for those consumers who are on diet due to the low content in calories. ELIVO de-alcoholized wines contain 80% calories less than wines with alcoholic gradation. With our wines we pretend that you could taste the pleasure of good wine in any occasion, any hour and any time, either during a regular working day or in special occasions. Share health and surprise with a special product created to enjoy and to take care of our health.

ÉLIVO ZERO ZERO DELUXE RED

ALCOHOL: 0 %

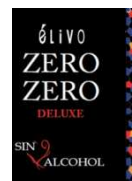

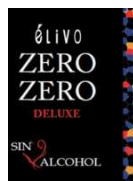

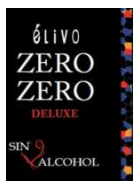

VISUAL. Two words describe Elivo Zero Zero: clear and bright. It is a brilliant wine with a bright aspect that reflects light perfectly. The color is deep cherry red with tinges of violet. Density of color is consistent with the original grape variety.

SMELL. Good varietal aromatic intensity with a slightly floral fragrance. Intense fruit on the nose with hints of red berries and black fruit. Swirling the glass reveals greater complexity and leaves a final impression of sweet fruit.

TASTE. A fresh and appealing taste that is soft, pleasant and light. Red berries and black cherry fruits. Lively young tannins and tingling acidity. The finish is moderately persistent. Final impressions are healthy and natural.

MATCHING. This wine is destined for the best restaurants to accompany meat, pasta, rice or seafood. It is not only ideal with a traditional lobster dinner but also with fusion cuisine or ethnic cuisine; in any situation it corresponds perfectly to the requirements of the best Spanish wines. ZERO ZERO Elivo is a modern and international product that knows no borders.

LOGISTIC DATA

Glass bottle- Kendo Wine Model

Capacity: 75 cL. – Empty Weight: 700 g - Full Weight: 1,450 g Overall height: 320 mm.

Diameter: Base: 76 mm - Shoulder: 73 mm - Neck: 28 mm - Mouth: 18.5 mm.

Packing: White cardboard boxes of 6 Measures: 32,5 x 23.5 x 16 cm.

Palletized: European Pallet: 180 x 120 x 80 cm.

Content pallet: 120 boxes of 6 units (5 heights of 24 boxes) = 720 bottles

Container: Dry Container 20’’: 11 pallets/Dry Container 40’’: 24 pallets

Composition: De-alcoholized red wine, sweetener (E-950), antioxidant (E-300), tannins, stabilizers (E-353 and E-422), Preservatives (E-220 and E-242) and aromas.

Physical characteristics: Liquid appearance, purple red color

Chemical analysis: Alcohol Content	0,0% Vol.
pH	3.25
Total Acidity	5.25 g/L
Free SO ₂	35 mg/L

ÉLIVO ZERO ZERO DELUXE WHITE ALCOHOL: 0 %

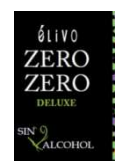

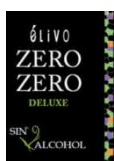

VISUAL. It is a luminous, clear and very bright wine with greenish tinges and a pale yellow colour.

SMELL. Very clean aroma, fresh, sensual and brimming with personality. It presents attractive notes of apple and refreshing notes of mango, pineapple and melon. In the background we can detect a smoky mineral nature combined with floral notes of valerian. Slight aeration reveals the full complexity of its aromas. Ripe fruit and a vegetal character full of finesse and elegance.

TASTE. Well balanced with a good structure. It displays a perfect combination of slight sweetness with nuances of citrus acidity. Complexity in the mouth is combined with freshness and long silky finish. Final impressions are full of splendid memories of ripe fruit.

MATCHING. We have prepared this wine for use in the best restaurants to accompany sophisticated dishes. Perfect with seafood, white meat, rice dishes and creamy blue cheese. You can also try it with fruits such as apricots or mango. We tried it with a salad of figs, duck pate and fresh goat cheese, it was a wonderful experience.

Best drunk at a temperature between 8-10° C.

ÉLIVO ESPUMOSO SPARKLING ALCOHOL: 0 %

SENSE OF VIEW: This wine appears clean, bright and transparent, having a color similar to a pale yellow straw with greenish iridescences. It presents medium-size bubbles with moderate persistence that fall into rosaries and crown structures on the surface of the glass.

SENSE OF SMELL: Medium intensity clean aroma with fruity notes of apple and citrus fruits. Sweet and pleasant aroma.

SENSE OF TASTE: At first, it has a fresh and inviting taste. It is soft, light and fruity. The carbon dioxide appears well integrated. Although it has an acidity slightly marked, a small sweet touch makes it balanced at the end.

ÉLIVO QUATTRO RED ALCOHOL: 4 %

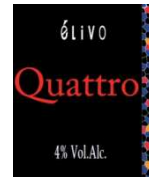

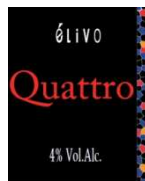

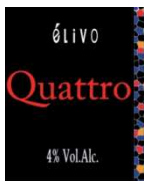

We have designed this wine to accompany meals that finish with a drive home. The low alcohol, just 4%, allows you to accompany meals with a fine wine which combines the best “Mencia” grapes from Galicia and the extraordinary flavour of “Tempranillo” grapes from la Rioja.

VISUAL: Quattro has an intense violet-red colour with hints of cherry. A modern aesthetic

SMELL. Suprising aromatic complexity of black fruits and floral notes. “Terroir” is extremely evident in the nose, flinty mineral notes and fresh fruit. Swirling the glass reveals spicy aromas combined with balsamic notes, green tea and mint.

TASTE. An extremely well balanced wine. Full bodied with sweet ripe tannins. Clean fruity acidity of black cherry with balsamic notes. Long silky finish.

MATCHING. ELIVO QUATTRO has been designed to accompany all kinds of meals, from daily lunch in a highway bar to fine dinners in a restaurant in the company of good friends. It allows you the peace-of-mind to enjoy your meal without the pre-occupation of the drive home. To drink more than one glass. Drink and enjoy calmly with just 4% Vol. Alc.

TECHNICAL DATA

Composition: Partially de-alcoholized red wine, E-422, tannins, antioxidants E-300, E-950, E-242 and aromas. Contains Sulphites.

Chemical Analysis: Alcohol Content 4 % Vol.

ÉLIVO QUATTRO WHITE ALCOHOL: 4 %

to a single glass.

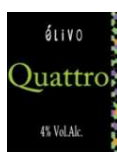

VISUAL. Clear and bright appearance. Gold-yellow colour with slightly greenish iridescence.

SMELL. Huge fresh aromas of lime, sweet touches of ripe pineapple and vague notes of freshly cut grass. It is the perfect balance between the fruity aromas of the Galician grapes and the sweet touches of the other varieties.

TASTE. A well structured wine. First impressions are of a fine acidity and saline nature. Pleasant citric rather exotic finish.

MATCHING. ELIVO QUATTRO has been created to accompany all kinds of meals, from everyday lunches to dinners in the company of friends. Enjoy it with the starters, salads, fish, white meats or whatever you fancy without worrying about the drive home afterwards. Enjoy the pleasure of a fine wine without limiting yourself

*Available in two bottles: Kendo Wine (left) and Bordelaise (right).

Chemical Analysis: Alcohol Content: 4 % Vol.

FREXCO

“BLANCO DE VERANO” SPARKLING

ALCOHOL: 4 %

This refreshing drink is perfect for any moment and especially as appetizer. It is made with selected white wines of “Airén” and “Sauvignon Blanc” varieties whose combination offers a fruity, light and fresh result. FreXco will make squeak your mouth, shiver your body and will create a disorder of temperature in your mind. Rush of freshness that turns your mouth into the celebration of the summer.

VISUAL. Visually it hits even before opening the bottle, with it lively and brightly colored packaging. It has a very clean appearance with a greenish yellow color that suggests freshness.

SMELL. In nose it stands out the smell of lemon and citric notes in general. When it falls down in the glass, it gives off a very pleasant aroma of citrus fruits that, as it is drunk, is replaced with the fruity aromas that the wine brings.

TASTE. In mouth it emphasizes the freshness and the balance between acidity and sweetness. It offers a smooth flavor, coming from the wine of just 4% alcoholic content, together with the fine bubbles and citric aromas that make it sparkling. FreXco is a very refreshing drink with a pleasant and balanced flavor that reminds citric wines, with clear and smooth lemon notes.

RECOMMENDATIONS Sit down in a terrace and enjoy the heat of the summer drinking FreXco. Drink it alone, with lime or ice and enjoy it.
